## Introducing Amar Biniyog – Your Smart Investment Partner in the Capital Market of Bangladesh

Welcome to Amar Biniyog, the next-generation trading app brought to you by Mika Securities Ltd. Designed to empower investors in Bangladesh’s capital market, Amar Biniyog combines simplicity, speed, and smart tools to give you complete control over your investments – anytime, anywhere.

Stay connected with the market through real-time data and live updates on stock prices, market indices, and trends. Whether you are an experienced trader or a new investor, our user-friendly interface makes it easy to manage your portfolio, track performance, and explore symbol details with confidence.

With Amar Biniyog, executing trades is fast, seamless, and secure. Place buy and sell orders effortlessly, access your purchase power, and stay informed about your profit, loss, and investment growth – all in one place.

At Mika Securities Ltd., we are dedicated to providing you with a trusted digital platform and the tools you need to make confident investment decisions in today’s dynamic market.

Join us on Amar Biniyog today and experience the smarter, simpler way to invest in Bangladesh’s capital market – your investment journey starts here.

**“Price movements are influenced by global and domestic factors. Accept volatility as part of market behavior, not a flaw in it”.**

# Discover the Power of Amar Biniyog

- **Secure Login & Profile Management**

Experience a safe trading environment with OTP verification, strong data encryption, and complete control over your account information.

- **Real-Time Market Data**

Stay updated with live stock prices, indices, and market movements to make informed trading decisions instantly.

- **24/7 Order Submission**

Place your buy and sell orders anytime – day or night – even when the market is closed. Your orders will be executed automatically once the market opens.

- **Trade from Anywhere, Anytime**

Access your account and trade confidently from any location or country through a secure internet connection.

- **Cross-Device Access**

Enjoy a seamless experience across multiple devices – mobile, tablet, and desktop – with synchronized data and performance.

- **Multiple Codes under a Single User**

Manage multiple trading codes easily under one login. Switch between accounts effortlessly without logging in repeatedly.

- **Purchase Power Access**

Check your available purchase power and manage your trading balance directly from the app.

- **Fund Withdrawal & Deposit Requests**

Easily request fund withdrawals or deposits – all digitally, without visiting the branch.

- **Treasury Bond Application**

Invest easily in government Treasury Bonds directly from your mobile – a secure and rewarding investment option.

- **IPO Application**

Apply for Initial Public Offerings (IPO) online with just a few clicks and stay informed about allotment status and results.

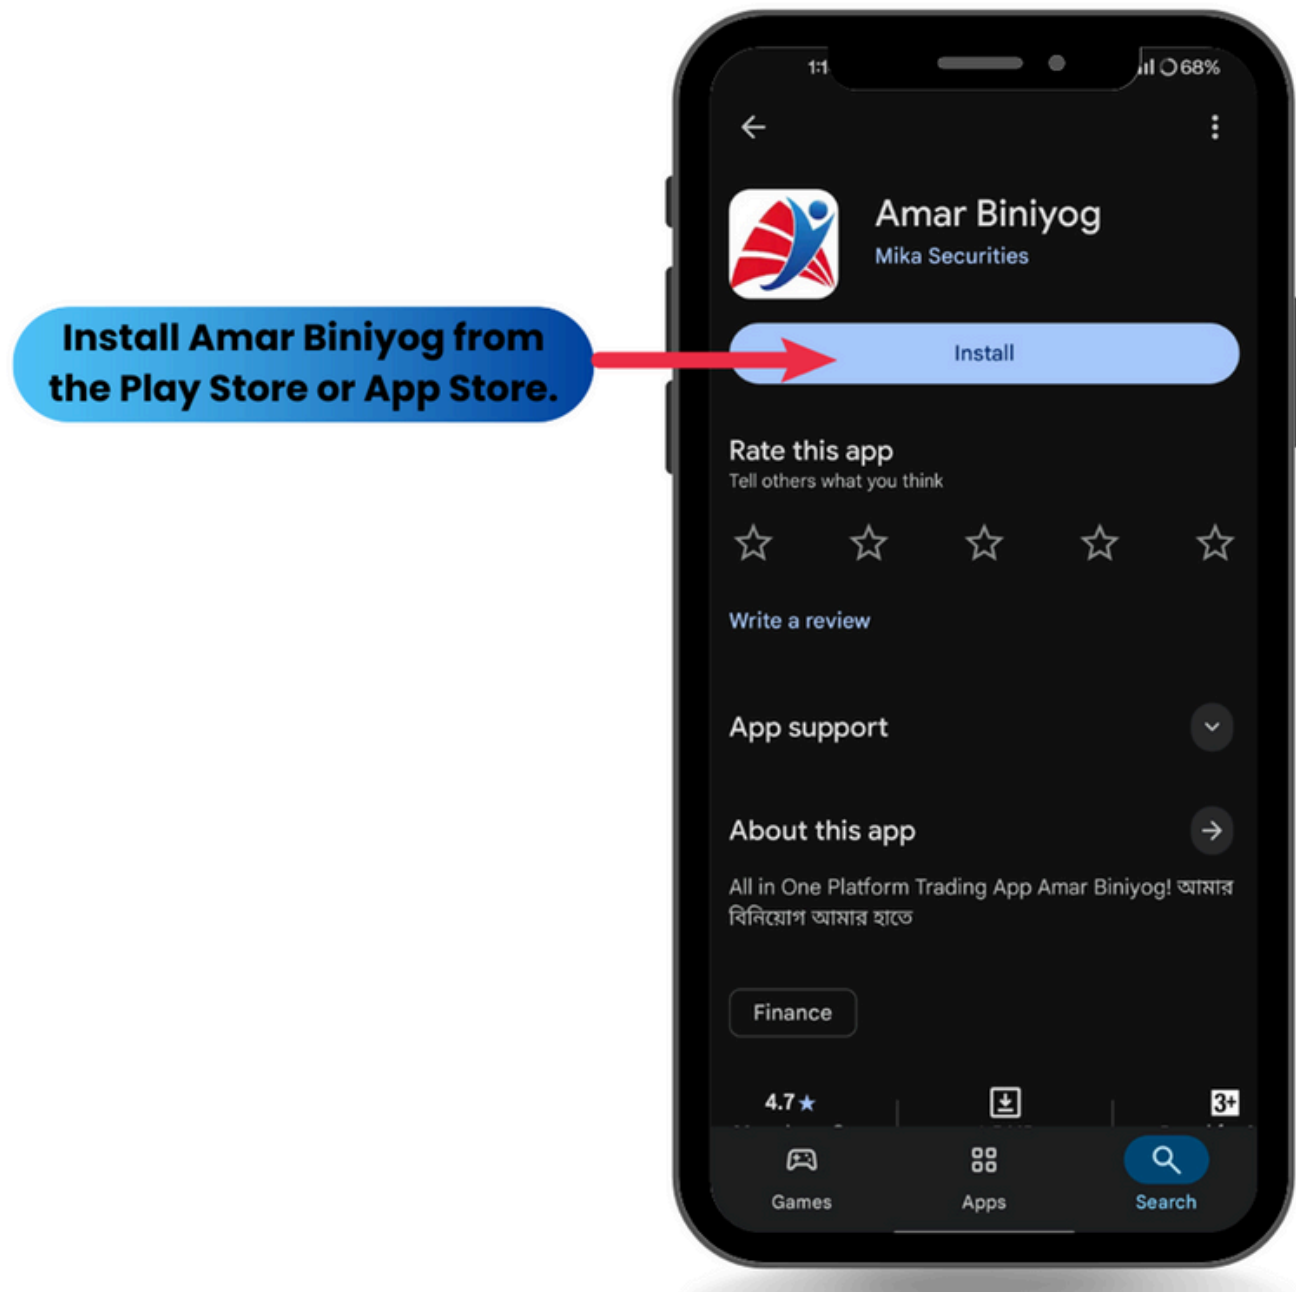

- **Compliance-Friendly Platform**

Built to align with all regulatory and compliance standards to ensure transparency, accuracy, and security in every transaction.

**“Past performance should never be interpreted as a promise of future results. Markets evolve, and outcomes vary”.**

## Download and Installation

Visit your mobile device's app store – Google Play Store (for Android) or Apple App Store (for iOS). Search for “**Amar Biniyog**” in the search bar.

Locate our app in the search results and tap “Install” or “Get” to begin the download. Once the installation is complete, tap the Amar Biniyog icon on your home screen to launch the app.

**“Your risk tolerance, time horizon, and financial goals define your strategy. Assess them before trading”.**

## Login

**password** twice.

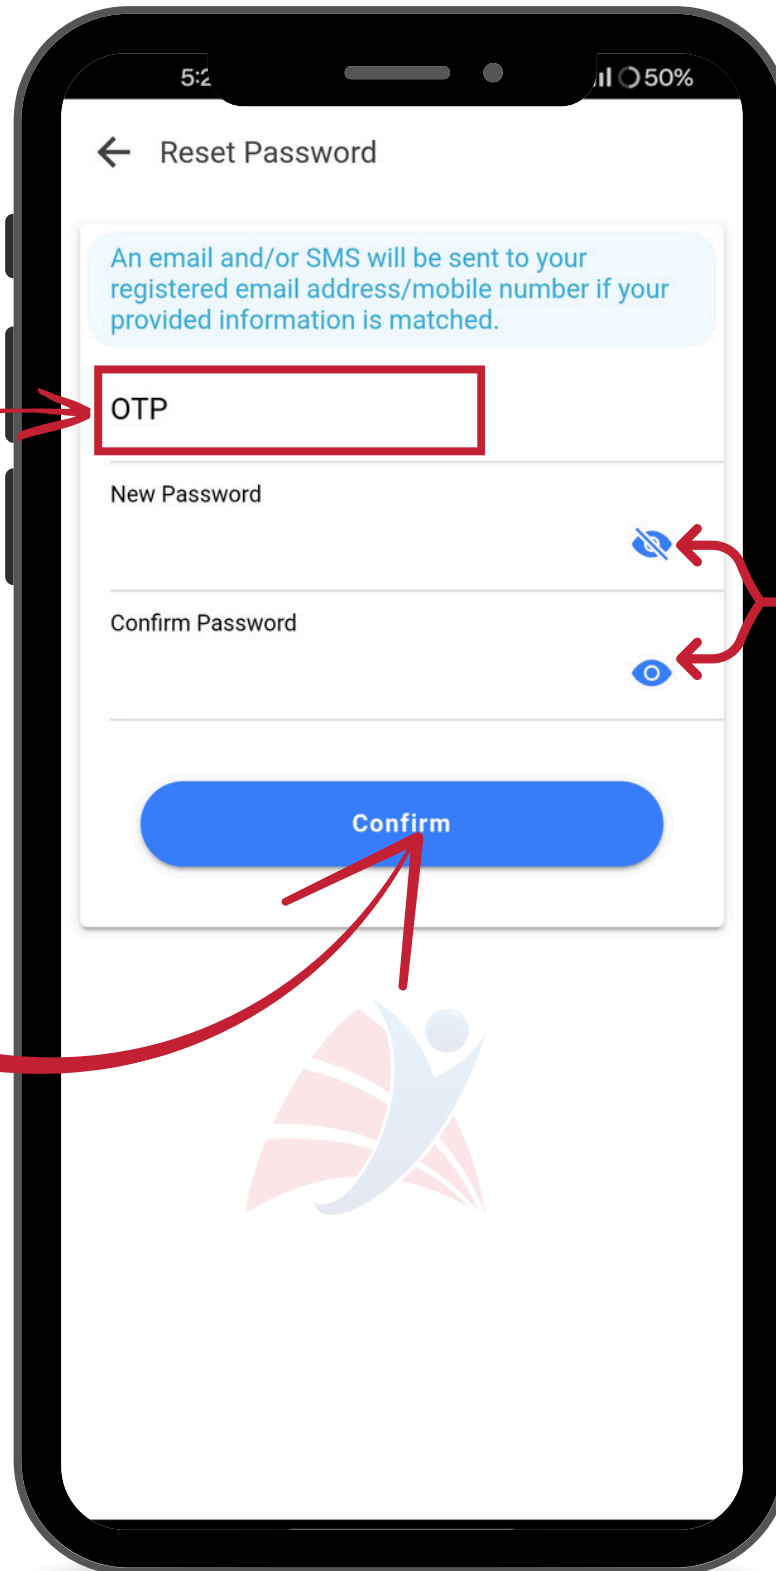

New Password

Confirm Password

Confirm

### Step 7

Tap the  
**'Confirm'** button.

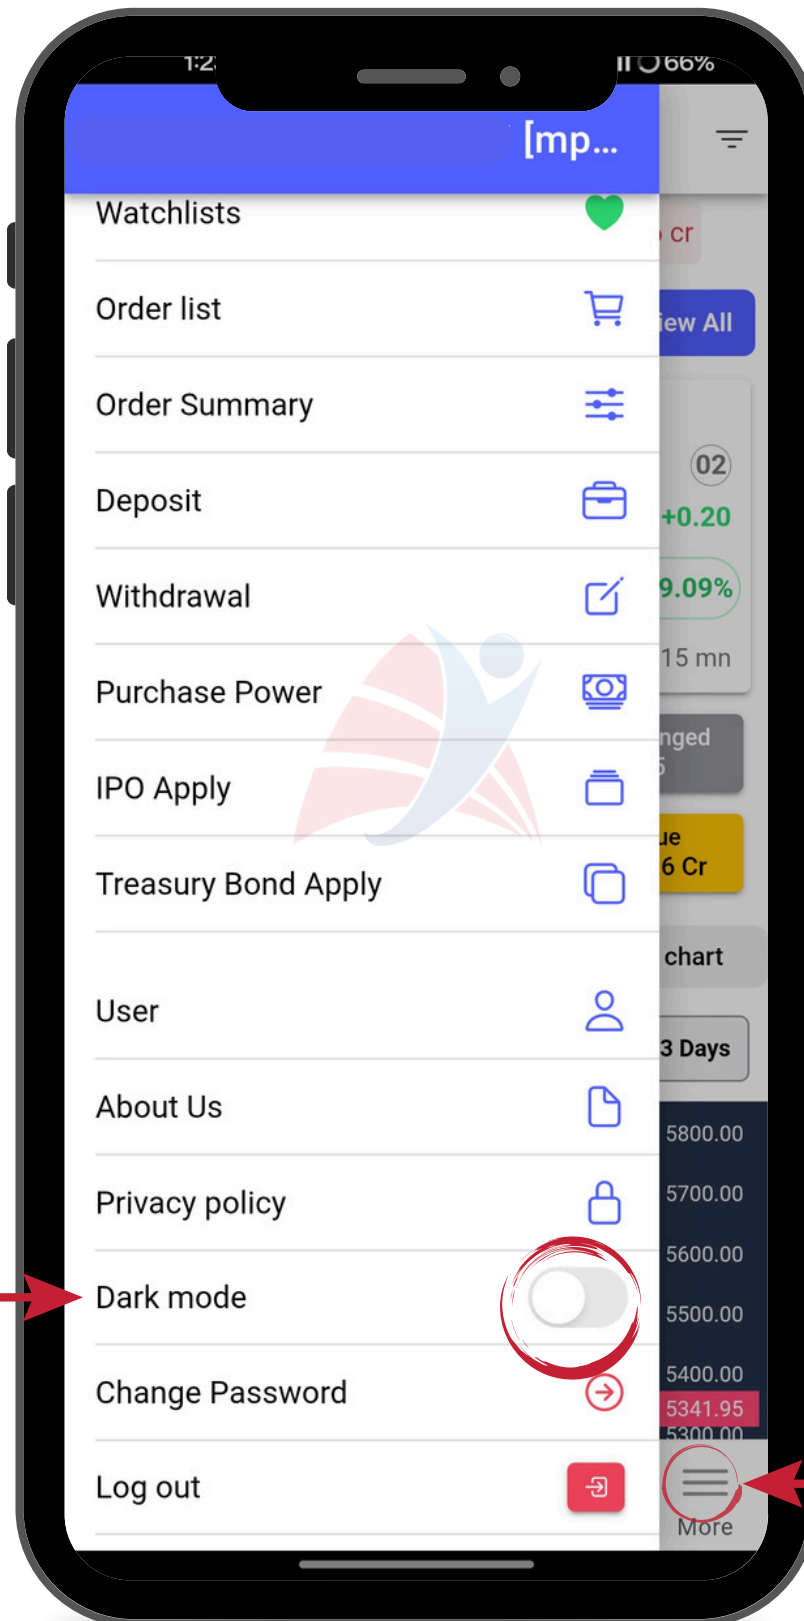

“Use stop-loss orders and position sizing to manage exposure to unexpected volatility”.

## Dark Mode

### Step 2

Tap the 'On Button'.

### Step 1

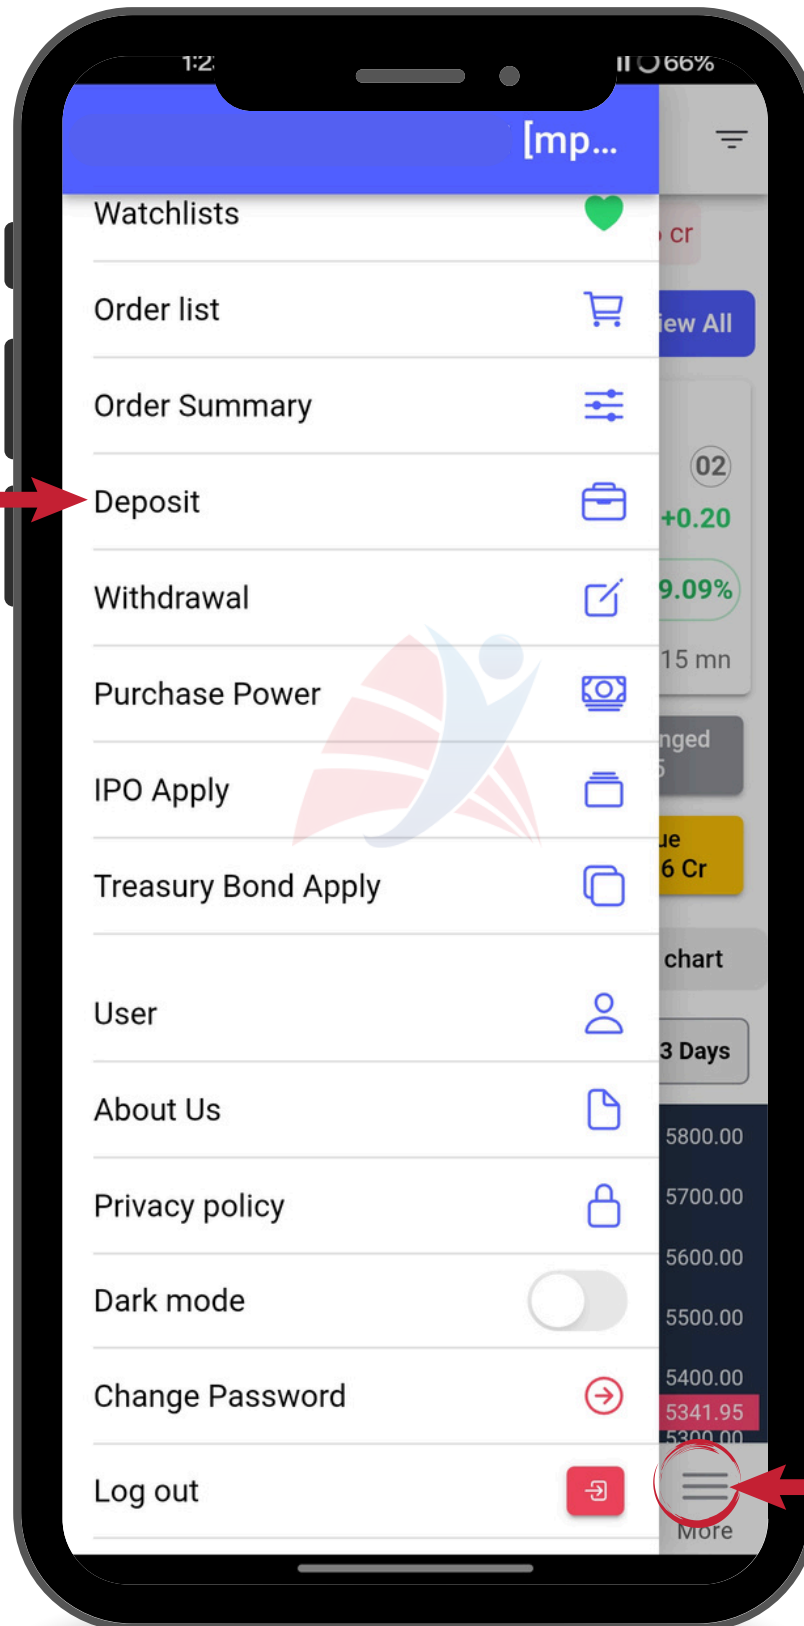

Tap the **Three lines icon**.

“Borrowed capital increases both profit potential and risk of loss. Use leverage only with full understanding”.

## Deposit

### Step 2

Select the  
**'Deposit'**

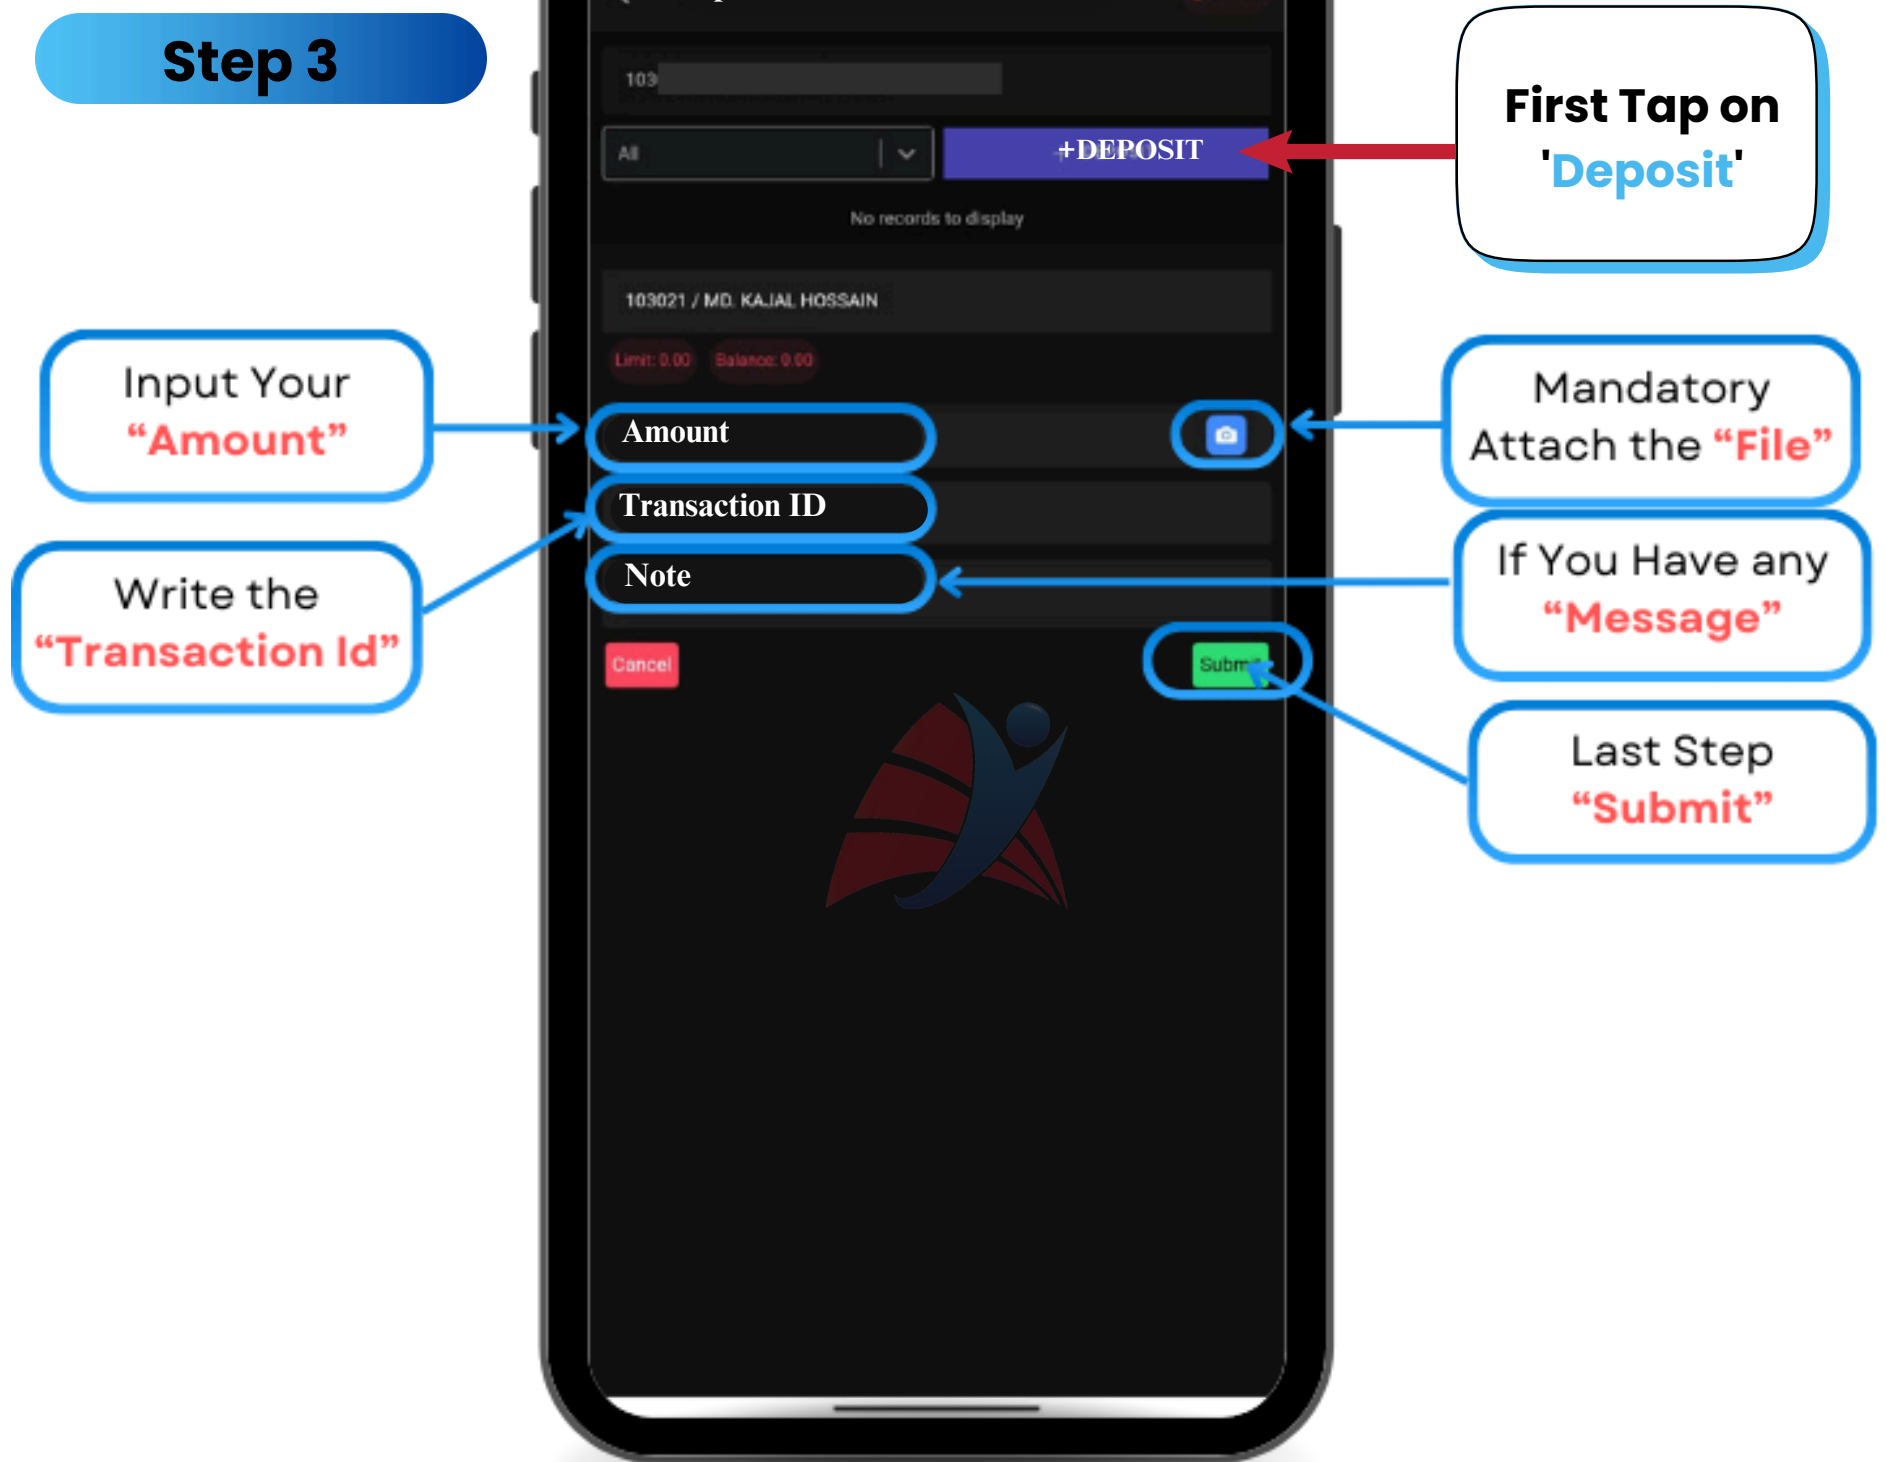

### Step 1

Tap the **Three lines icon.**

“Do not follow market rumors or herd sentiment. Independent analysis leads to better outcomes”.

## Deposit

### Step 3

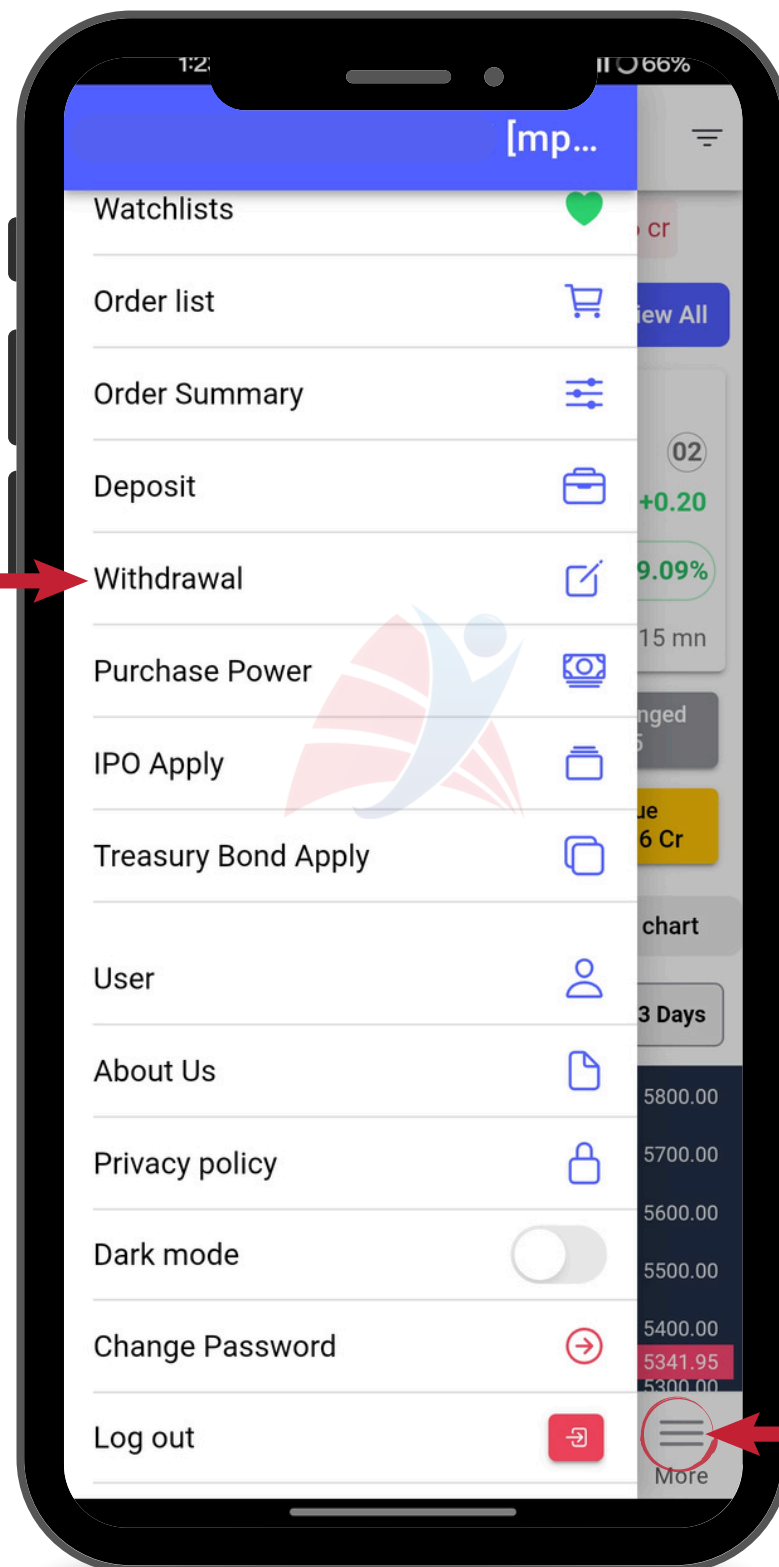

“Frequent trading raises costs and stress. Consistent strategy compounds results over time”.

## Withdrawal

### Step 2

Select the  
"Withdrawal"

### Step 1

Tap the **Three lines icon.**

“Investing builds value through fundamentals; speculation relies on chance. Know which one you are doing”.

## Withdrawal

### Step 3

First Tap on  
“Withdrawal”

Input Your  
“Amount”

If You Have any  
“Message”

Last Step  
“Submit”

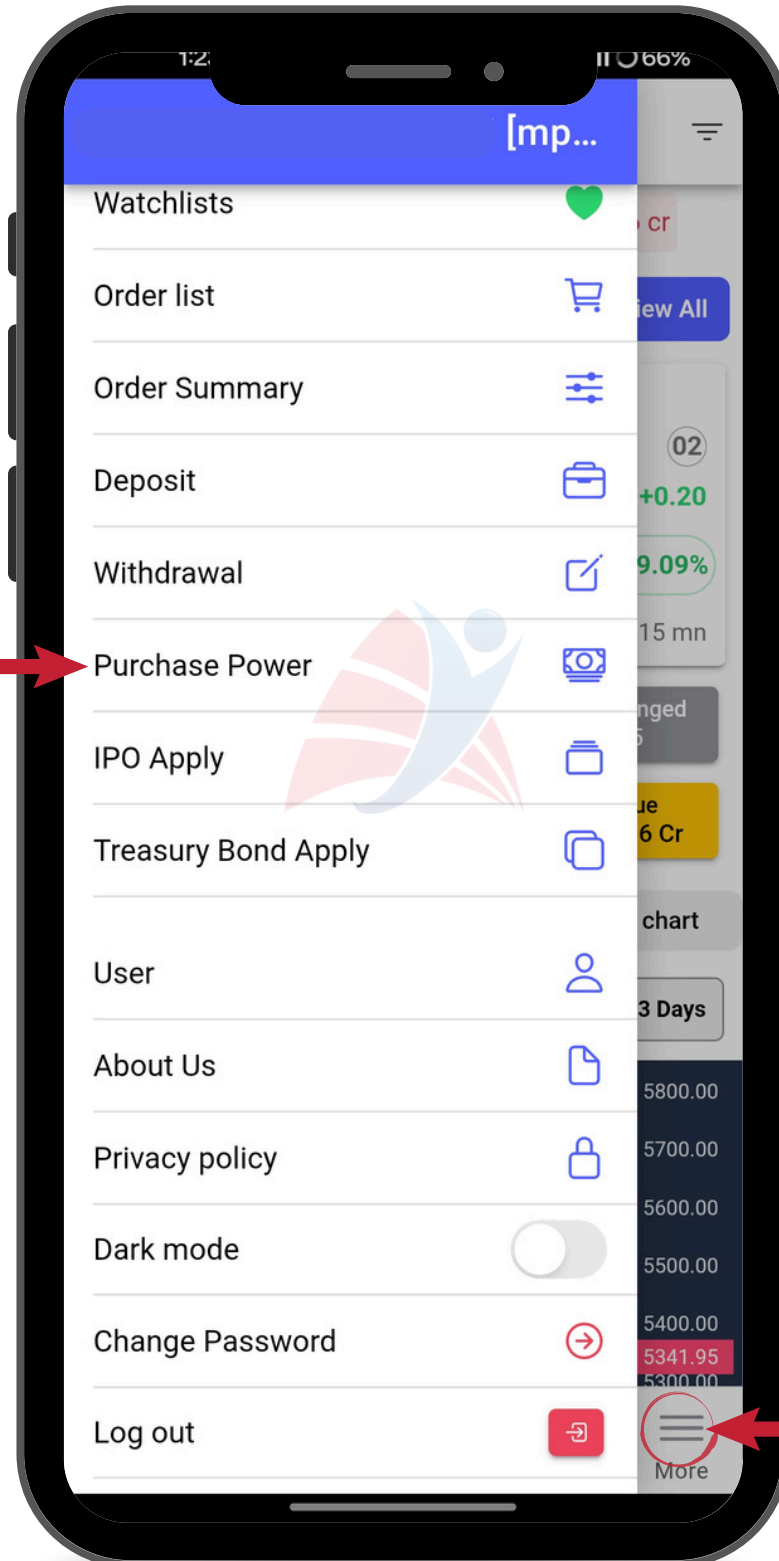

The screenshot shows a mobile application interface for a withdrawal process. At the top, there is a blue header with the word "Withdrawal". Below this, the screen displays a form with several fields and buttons. A blue callout box labeled "Step 3" is positioned to the left of the screen, with arrows pointing to specific elements on the app. The first callout, "First Tap on 'Withdrawal'", points to a blue button labeled "+ WITHDRAWAL". The second callout, "Input Your 'Amount'", points to a text input field labeled "Amount". The third callout, "If You Have any 'Message'", points to a text input field labeled "Note". The fourth callout, "Last Step 'Submit'", points to a green button labeled "Submit". The app interface also shows a status bar at the top with the time 9:24 and 40% battery. Below the "+ WITHDRAWAL" button, there is a dropdown menu showing "All" and a "Limit: 0.00 Balance: 0.00" indicator. At the bottom of the form, there are two buttons: a red "Cancel" button and a green "Submit" button. A logo is visible at the bottom center of the screen.

“Before buying, ensure you fully understand an instrument’s features, costs, and risk profile”.

## Purchase Power

### Step 2

Select the  
**Purchase Power**

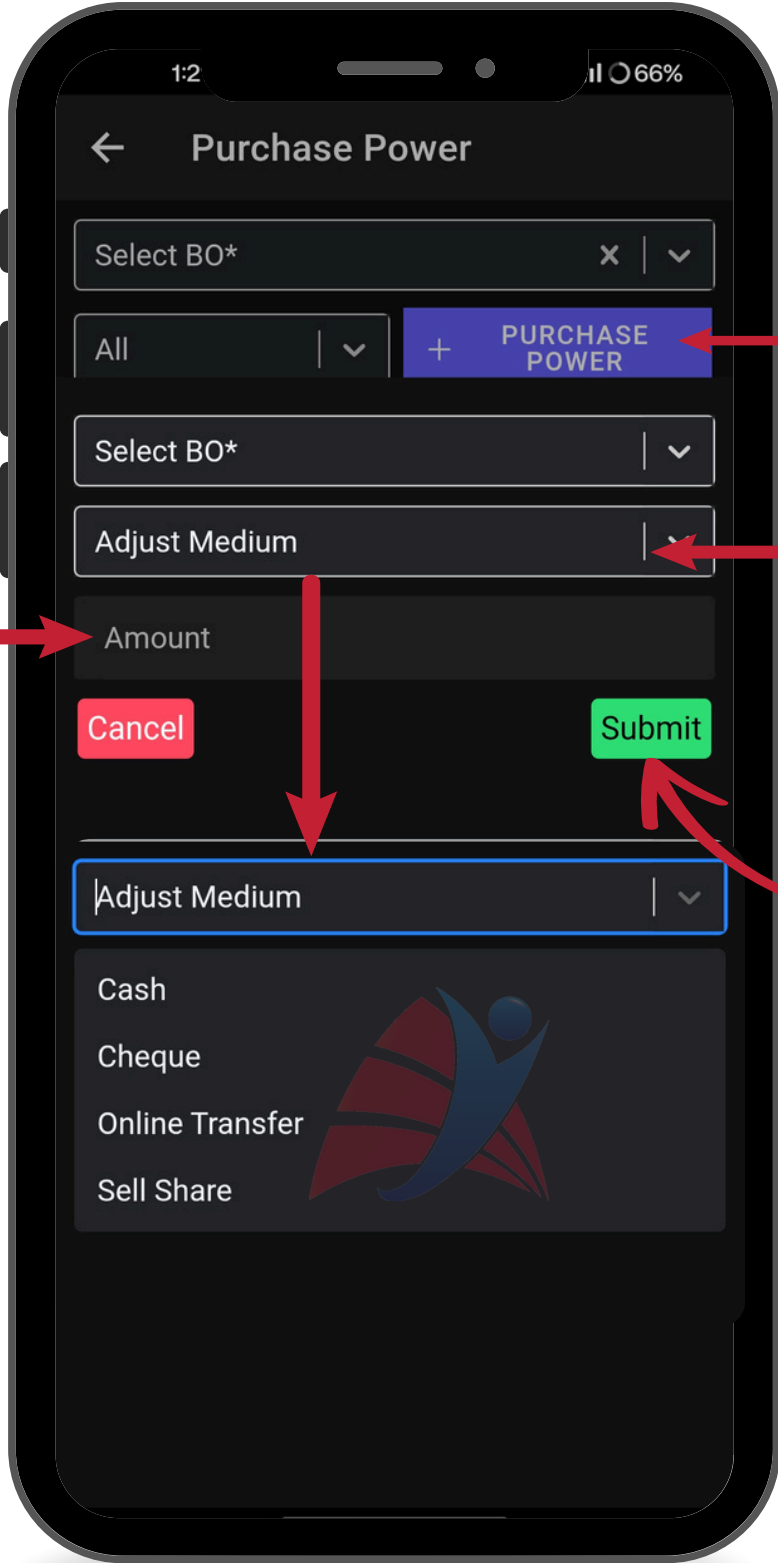

### Step 1

Tap the **Three lines** icon.

“Keep emergency funds separate. Invest only what can remain in the market without financial strain”.

# Purchase Power

Input Your Purchase Power "Amount"

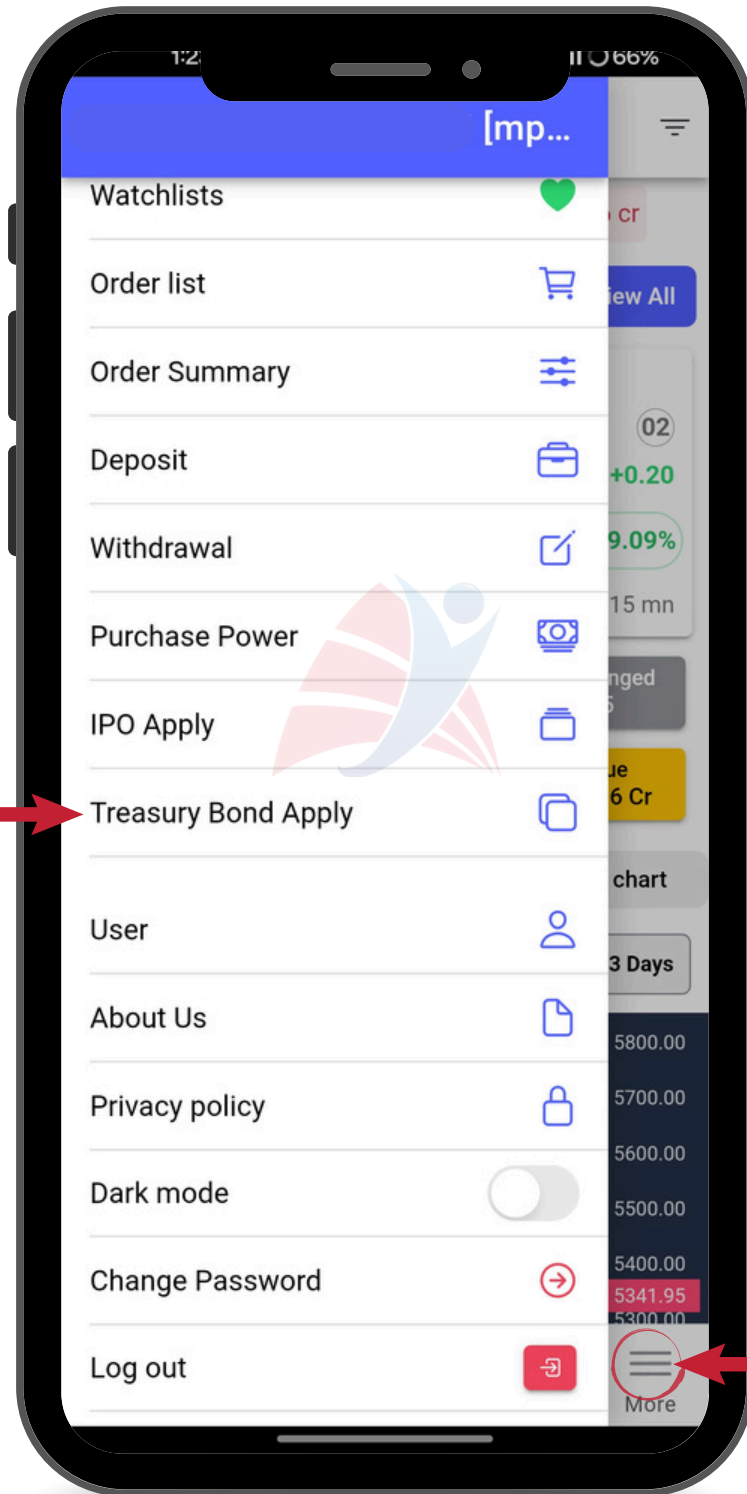

First Tap on 'Purchase Power'

Select your "Adjustment Medium" from the list

Last Step "Submit"

“Macroeconomic trends shape market returns. Align investments with economic realities”.

## Treasury Bond Apply

### Step 2

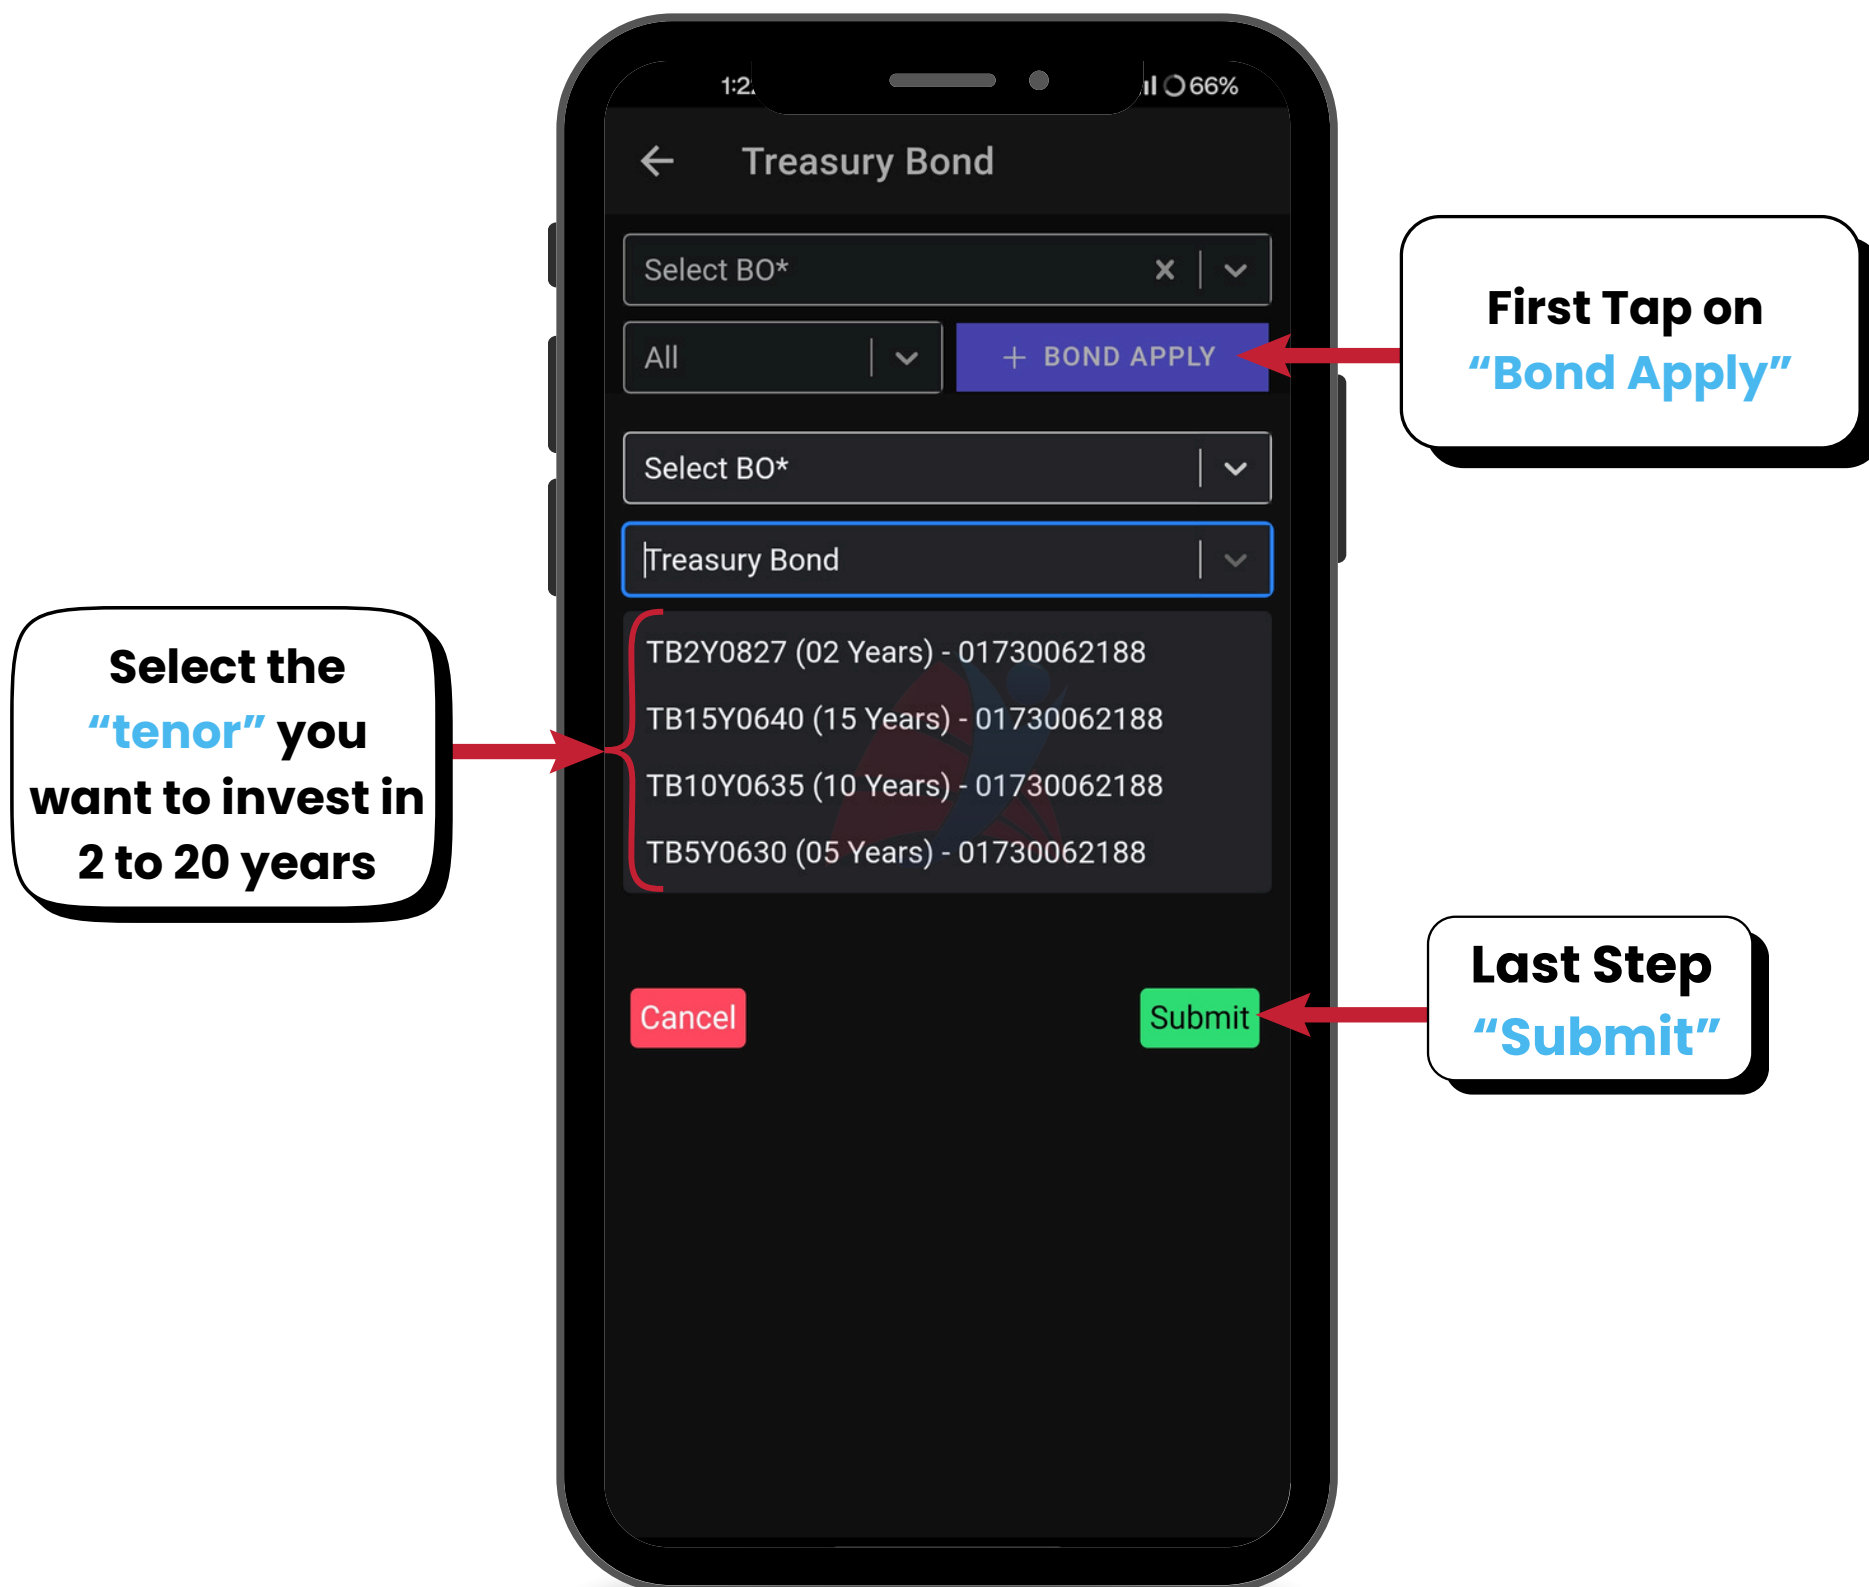

Select the  
"Treasury Bond  
Apply"

### Step 1

Tap the **Three  
lines** icon.

"Regularly review and rebalance holdings to maintain your intended risk-return balance".

## Treasury Bond Apply

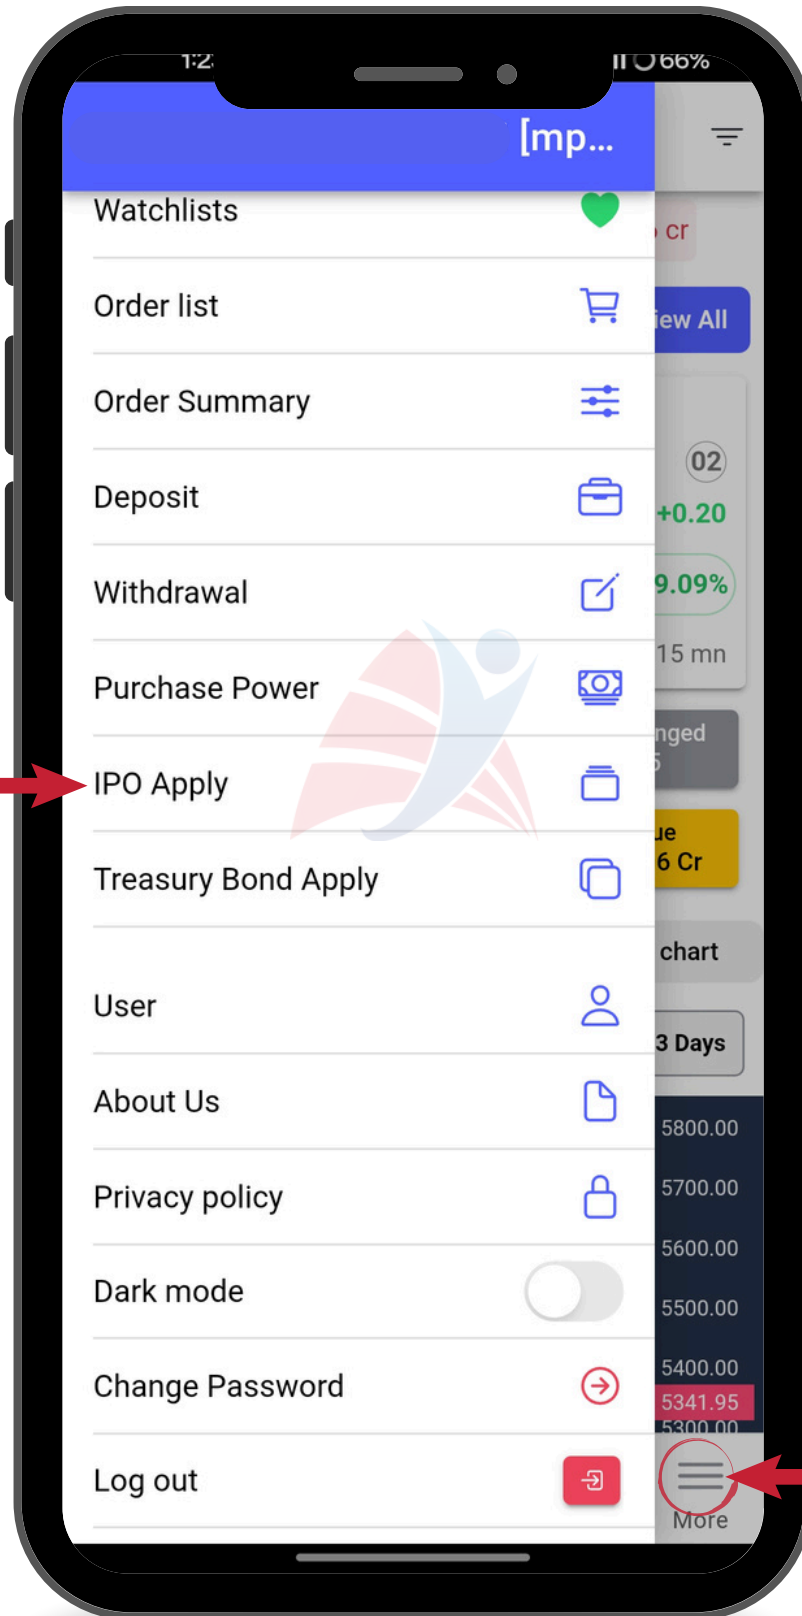

**"Understand how capital gains and dividends are taxed.  
Optimize legally, and stay compliant".**

# IPO Apply

## Step 2

Select the "IPO Apply"

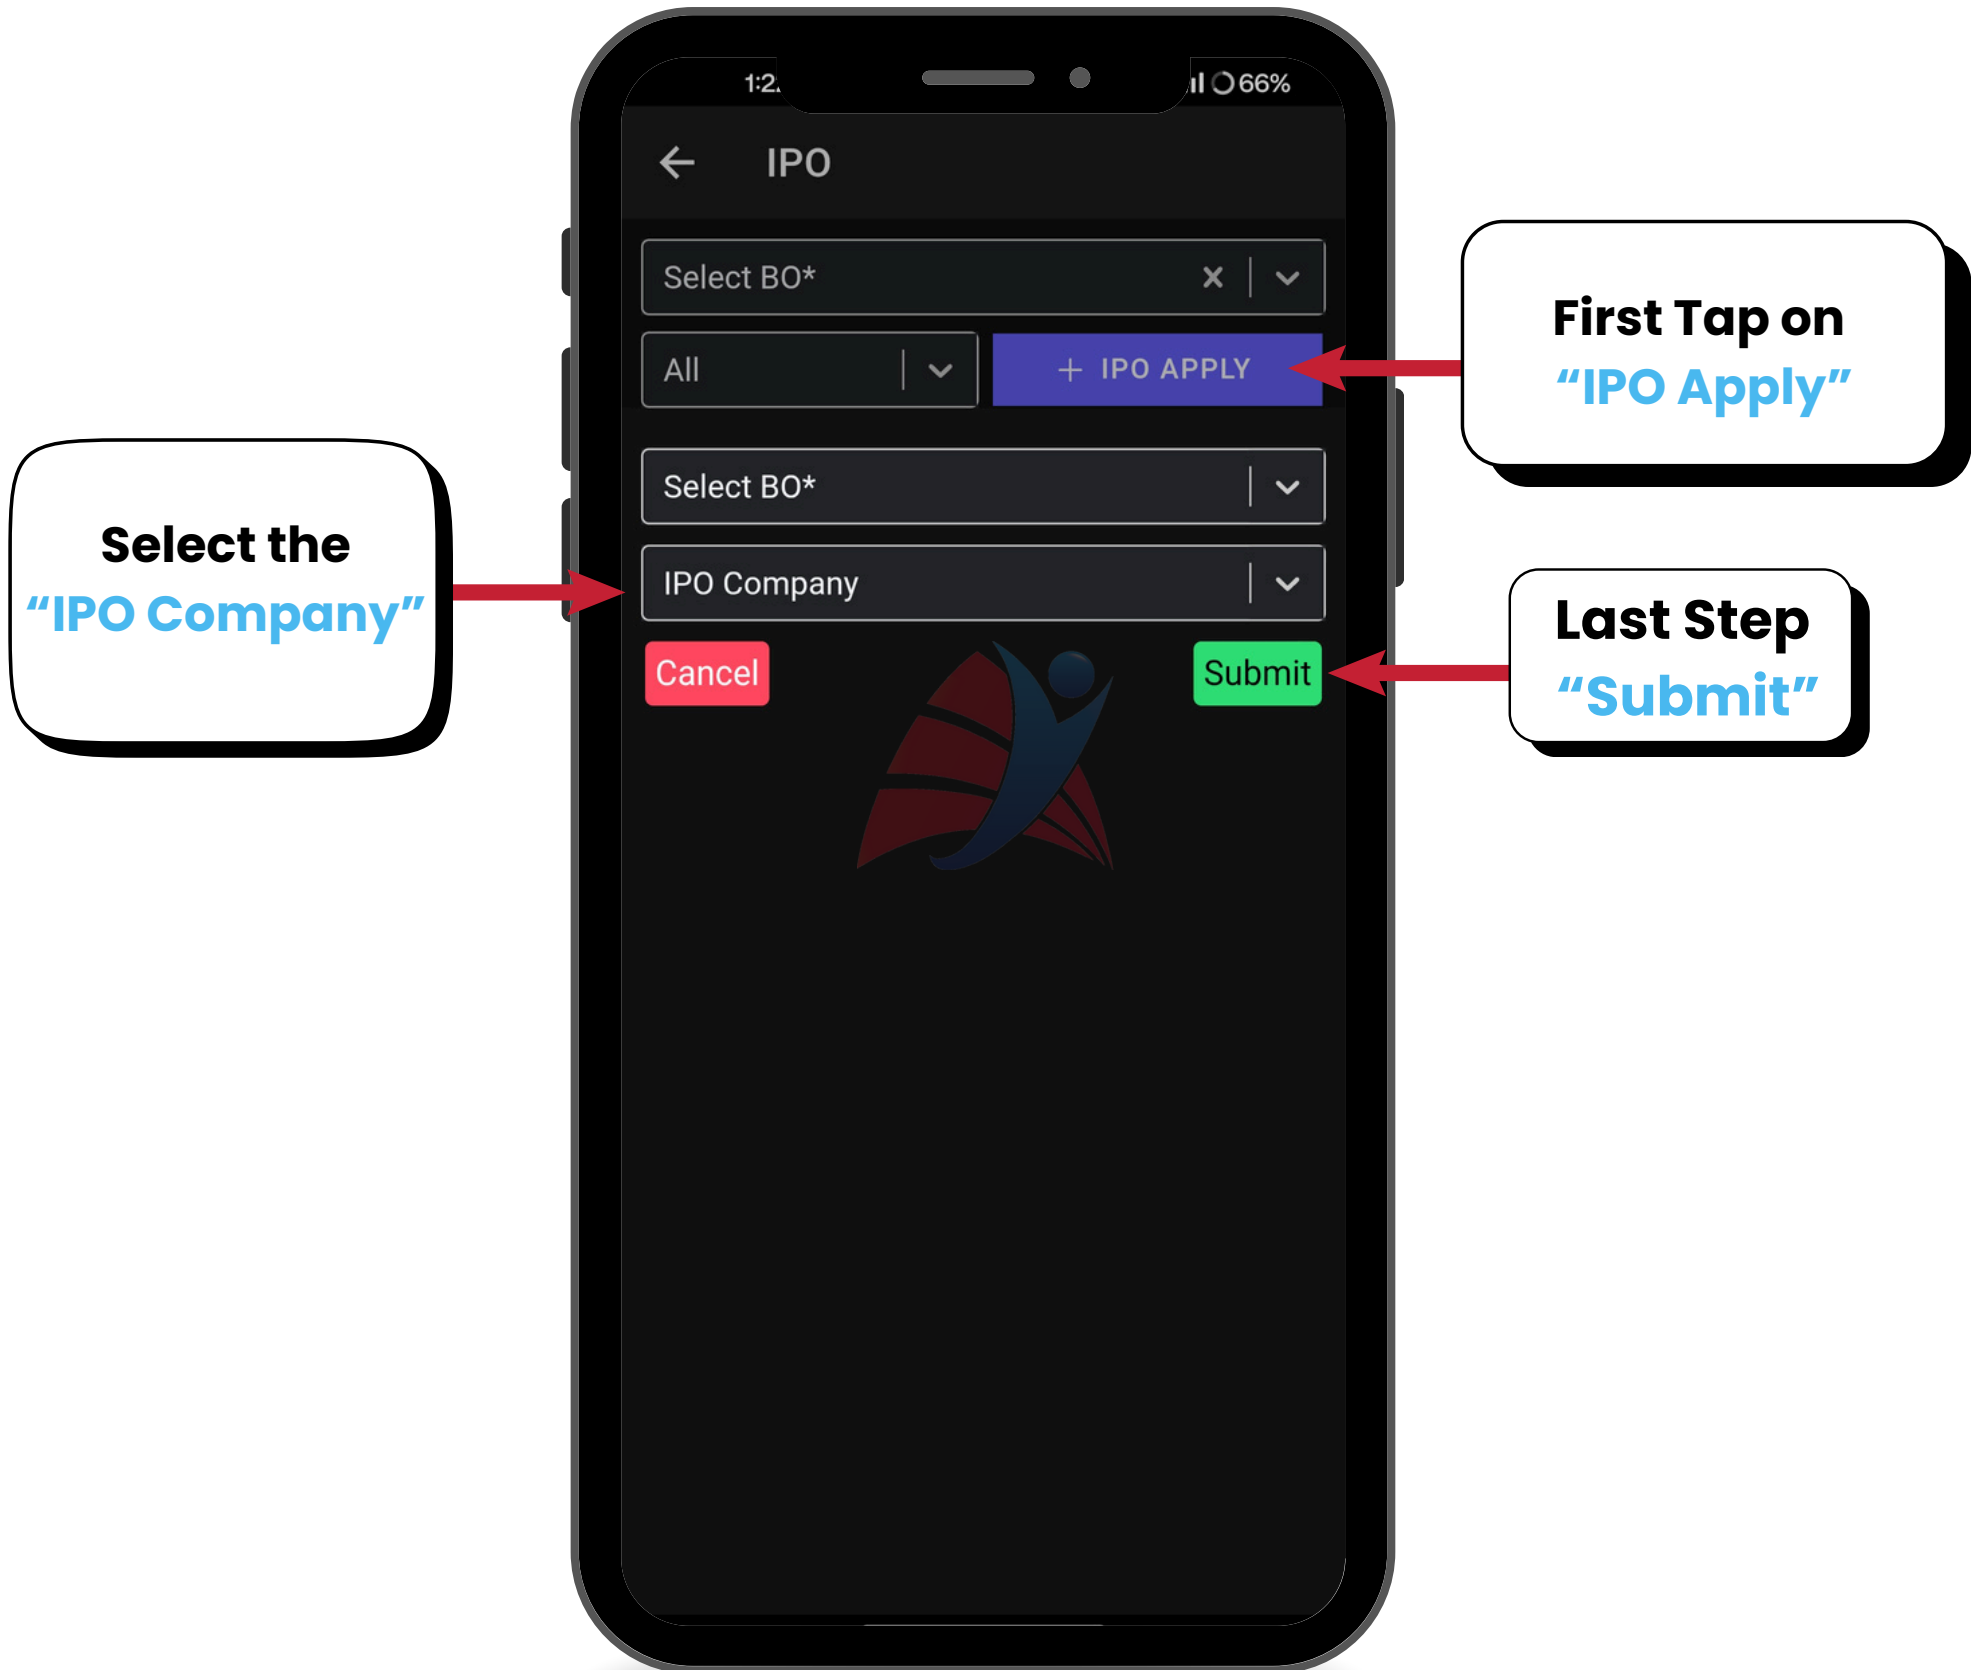

## Step 1

Tap the Three lines icon.

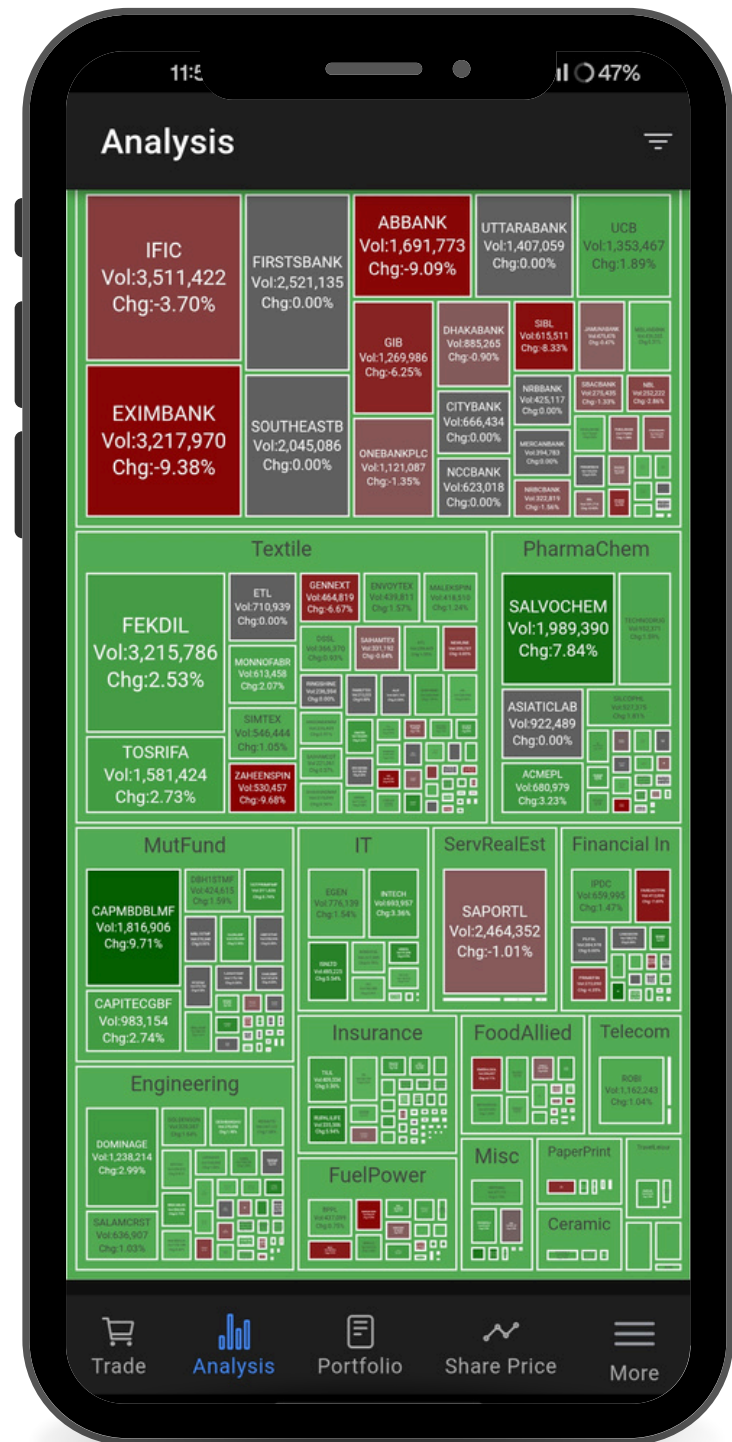

“Integrity and transparency are the foundation of investor confidence and market health”.

## IPO Apply

**“Protect your account credentials. Mika Securities will never request your password or OTP”.**

# Analysis

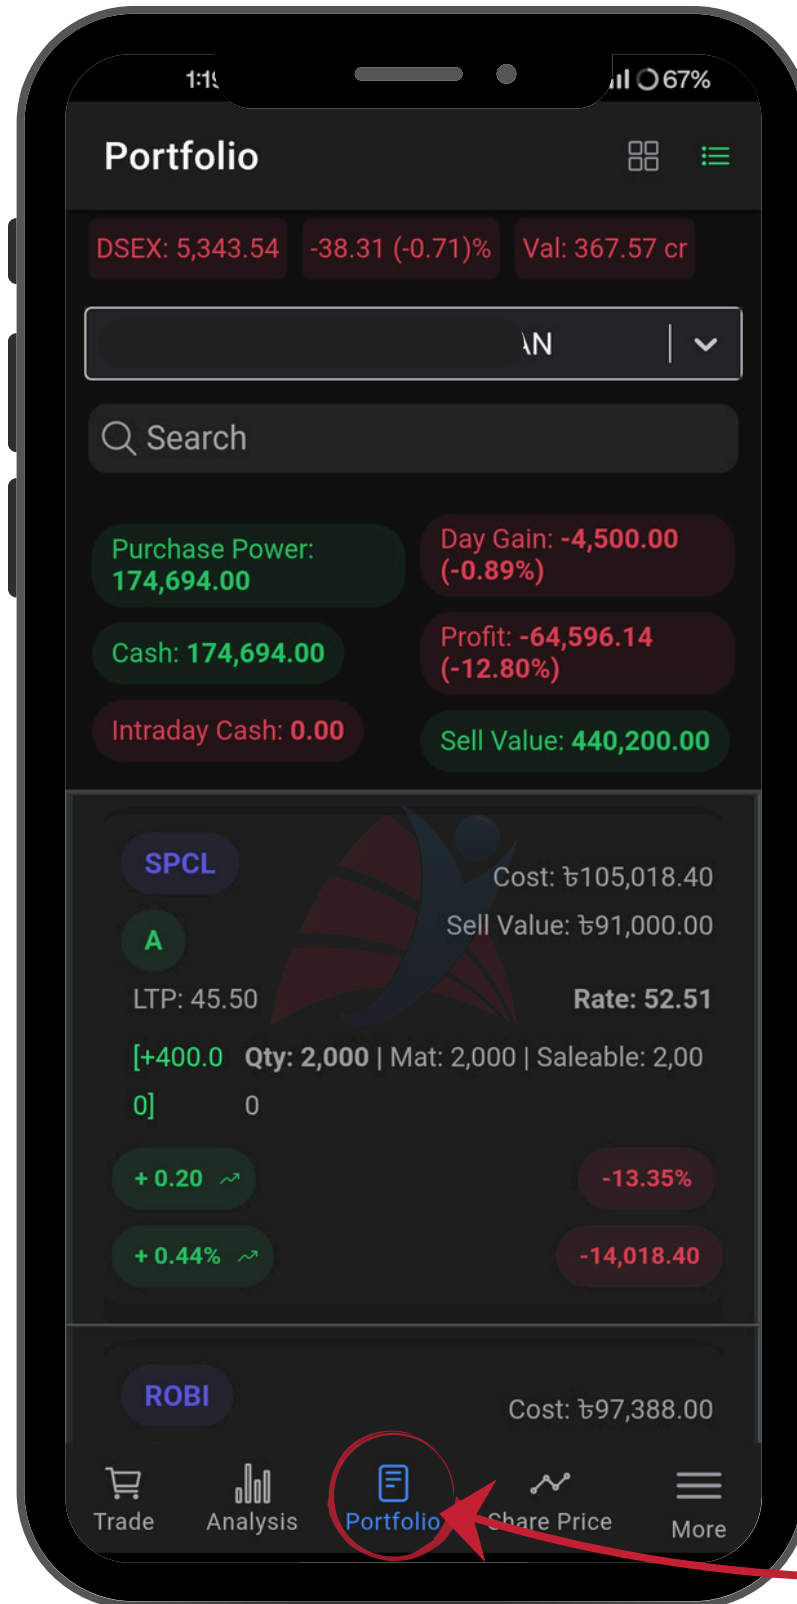

SCROLL

Tap the "Analysis".

"Be aware of how easily an asset can be bought or sold. Illiquid securities may restrict exit flexibility".

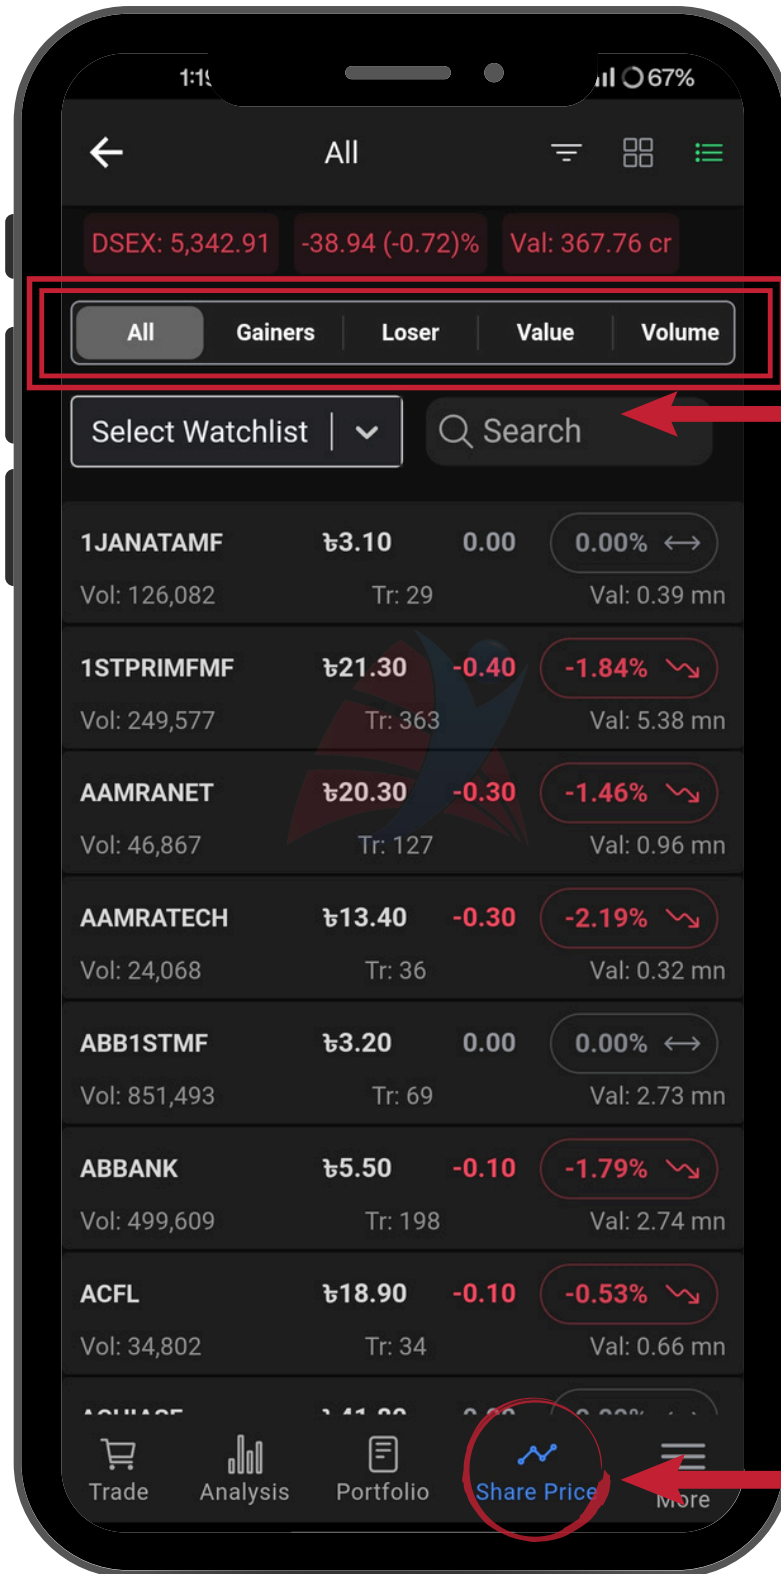

## Portfolio

Tap the  
"Portfolio".

“Crowd behavior can distort valuations. Base decisions on facts, not social trends”.

## Share Price

Tap the **“Search”** and enter your script to find the share price.

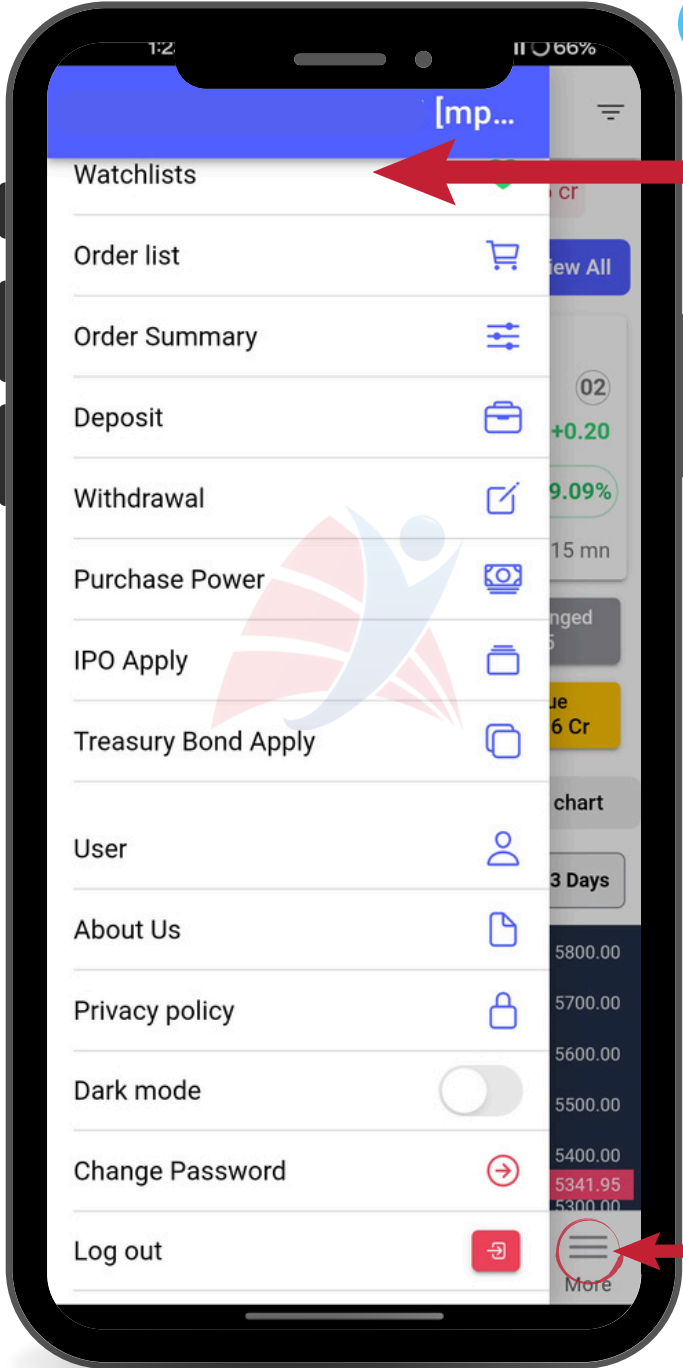

Tap the **“Portfolio”**.

“Focus on capital preservation and steady growth rather than short bursts of speculative gain”.

# Create Watchlist

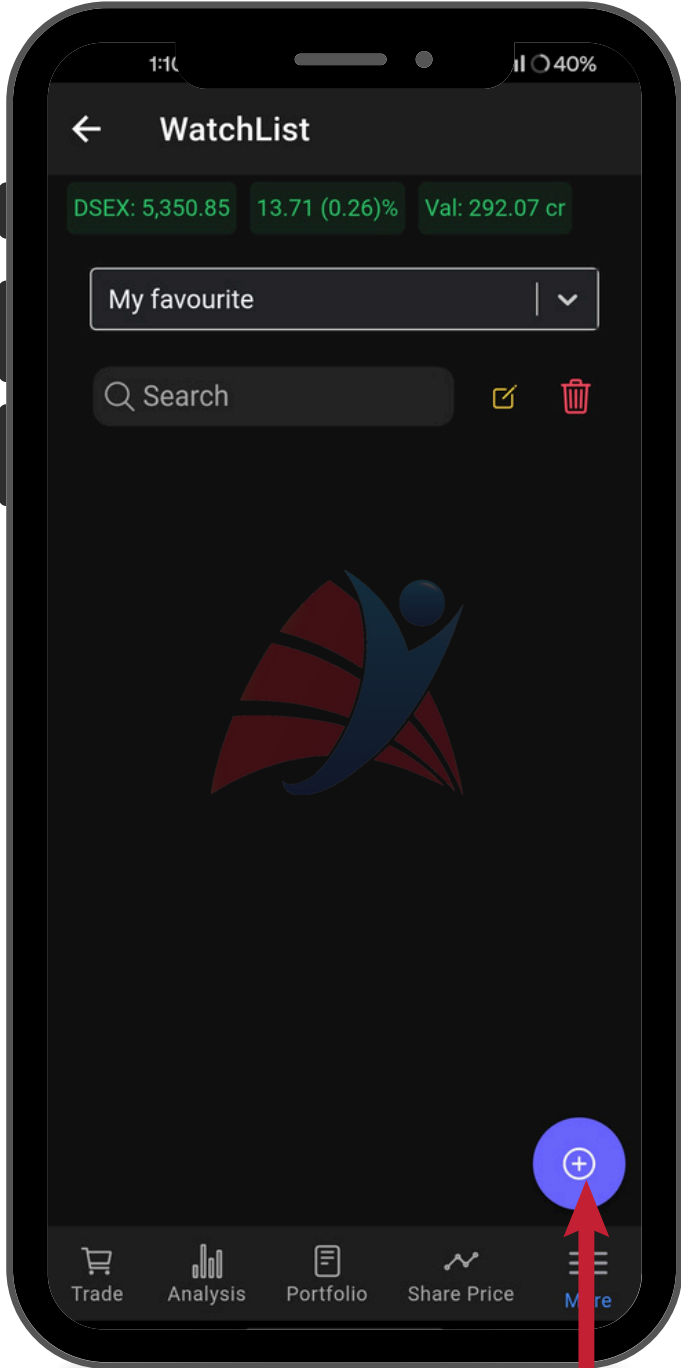

## Step 2

Tap on "Watchlist"

## Step 1

Tap the Three lines icon.

## Step 3

Tap the Plus icon.

**"Protect principal before pursuing profits – risk management comes first".**

“Structured decision-making grounded in data outperforms emotionally driven reactions”.

## Market Rate

To trade at the market rate, please change the option from 'Limit' to 'Market' here.

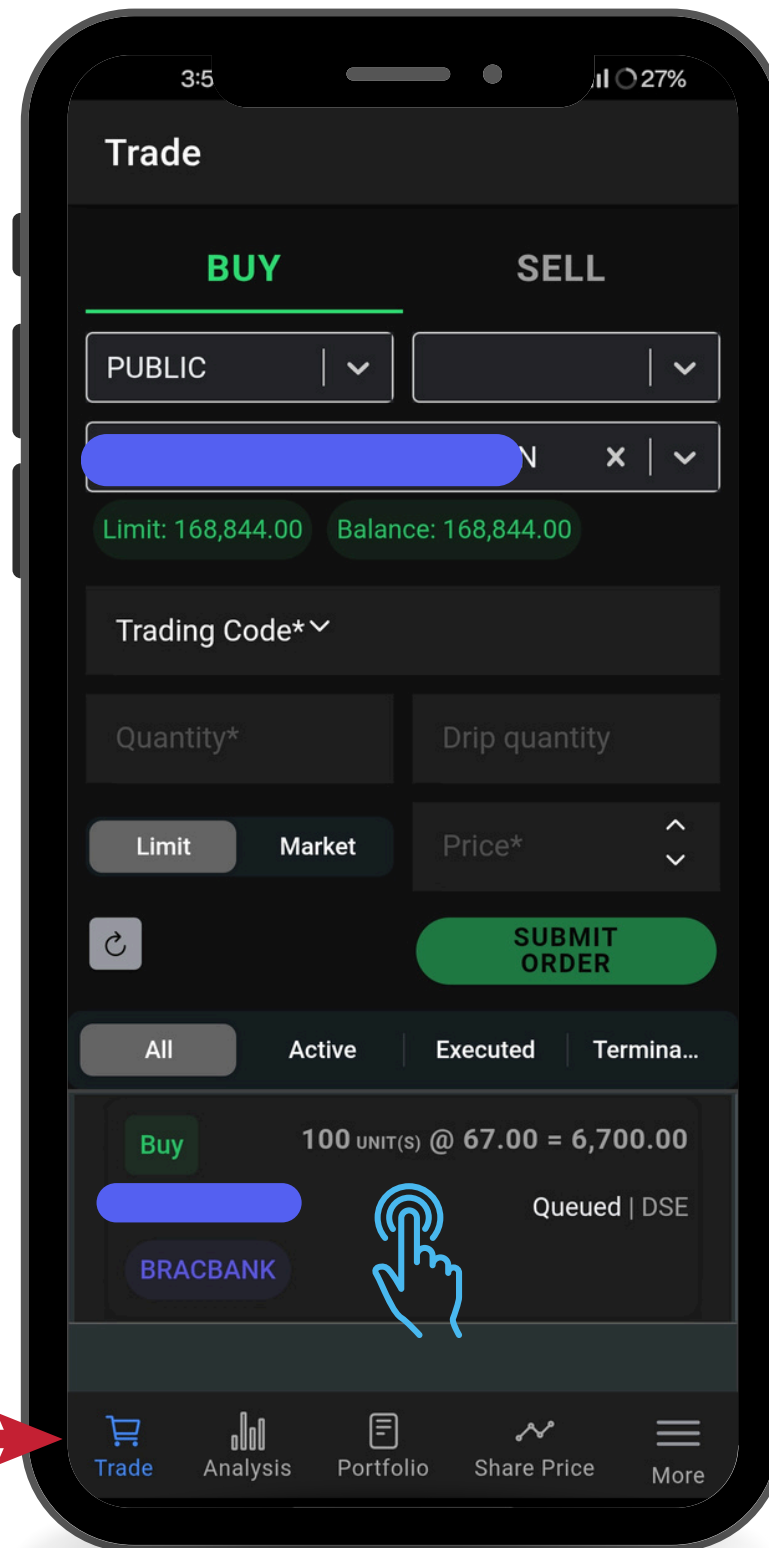

“Recognize periods of panic or euphoria as signals to stay disciplined, not impulsive”.

## Price Modify

Just **Tap on** the order you wish to modify

**First of all Tap** the **"Trade"**.

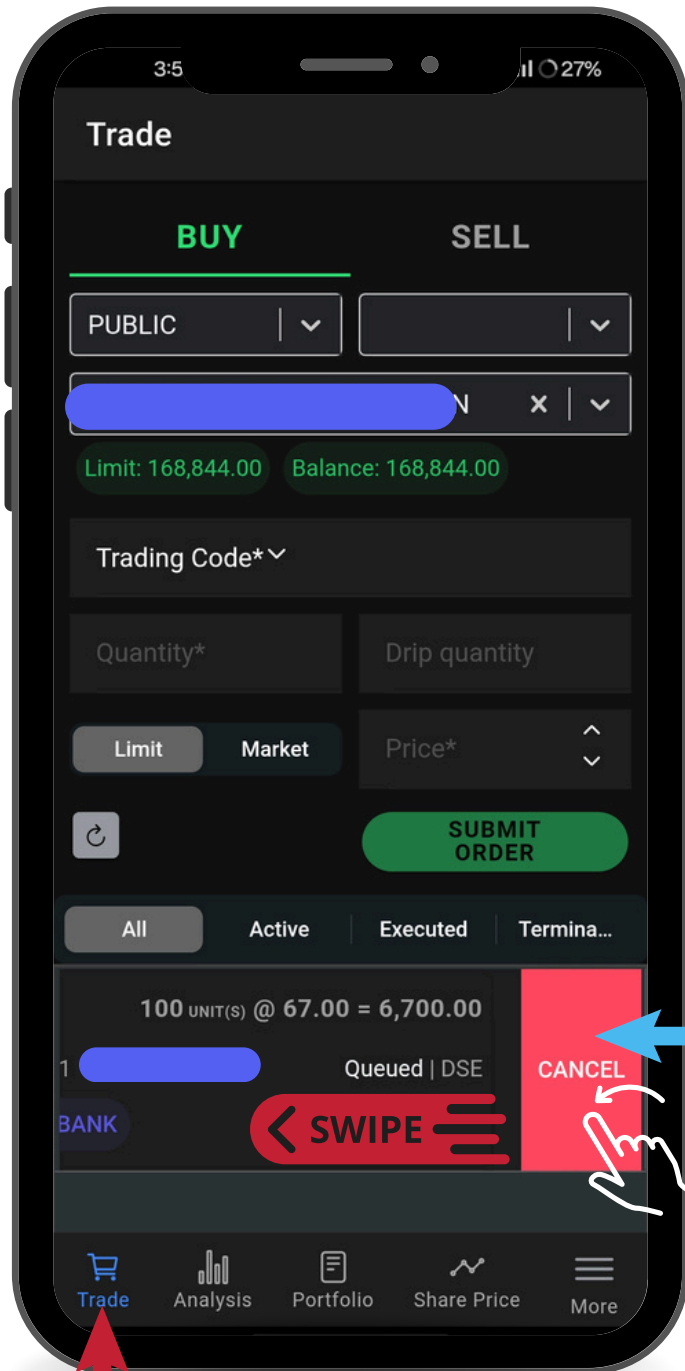

“A robust investment process is more reliable than attempting to forecast short-term movements”.

**Step 1**

**Cancel Order**

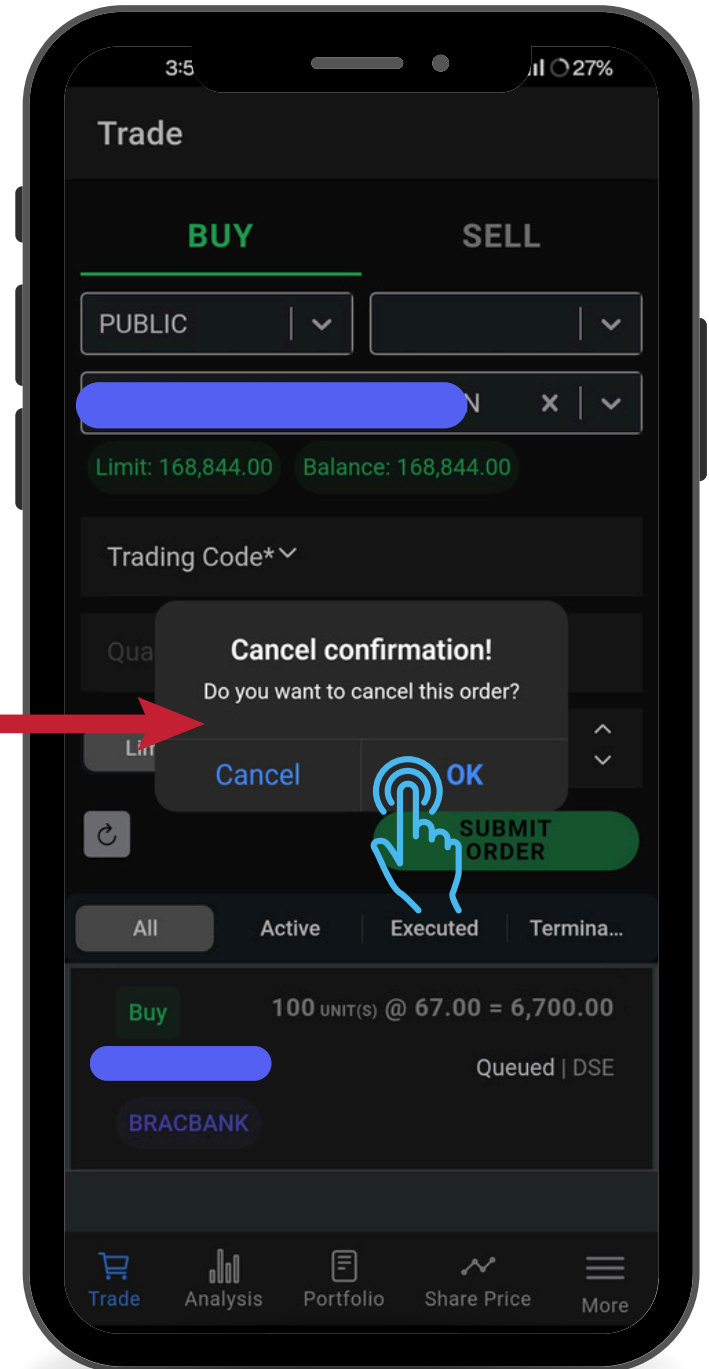

**Step 2**

**First of all Tap the "Trade".**

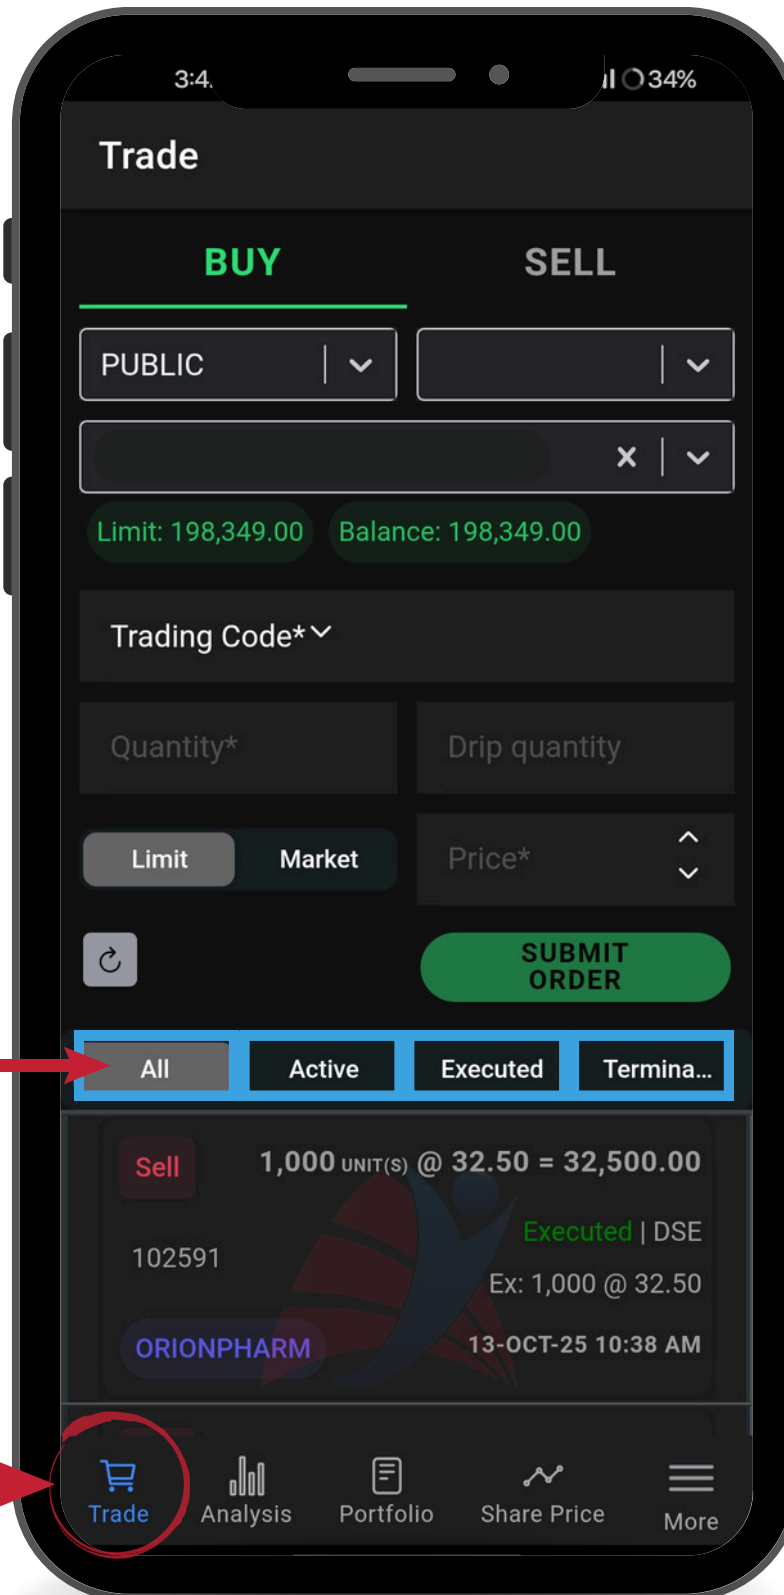

**Finally, confirm by selecting 'OK'**

**Swipe on the order you wish to cancel, then press the 'Cancel' button.**

**"Continuous learning strengthens your ability to evaluate opportunities and manage risk".**

## Order Status

### Step 2

To view **Order status**, select the desired option from here.

First of all Tap the **"Trade"**.

### Step 1

"Temporary declines do not define long-term outcomes.  
Patience sustains compounding benefits".

## Limit vs Balance

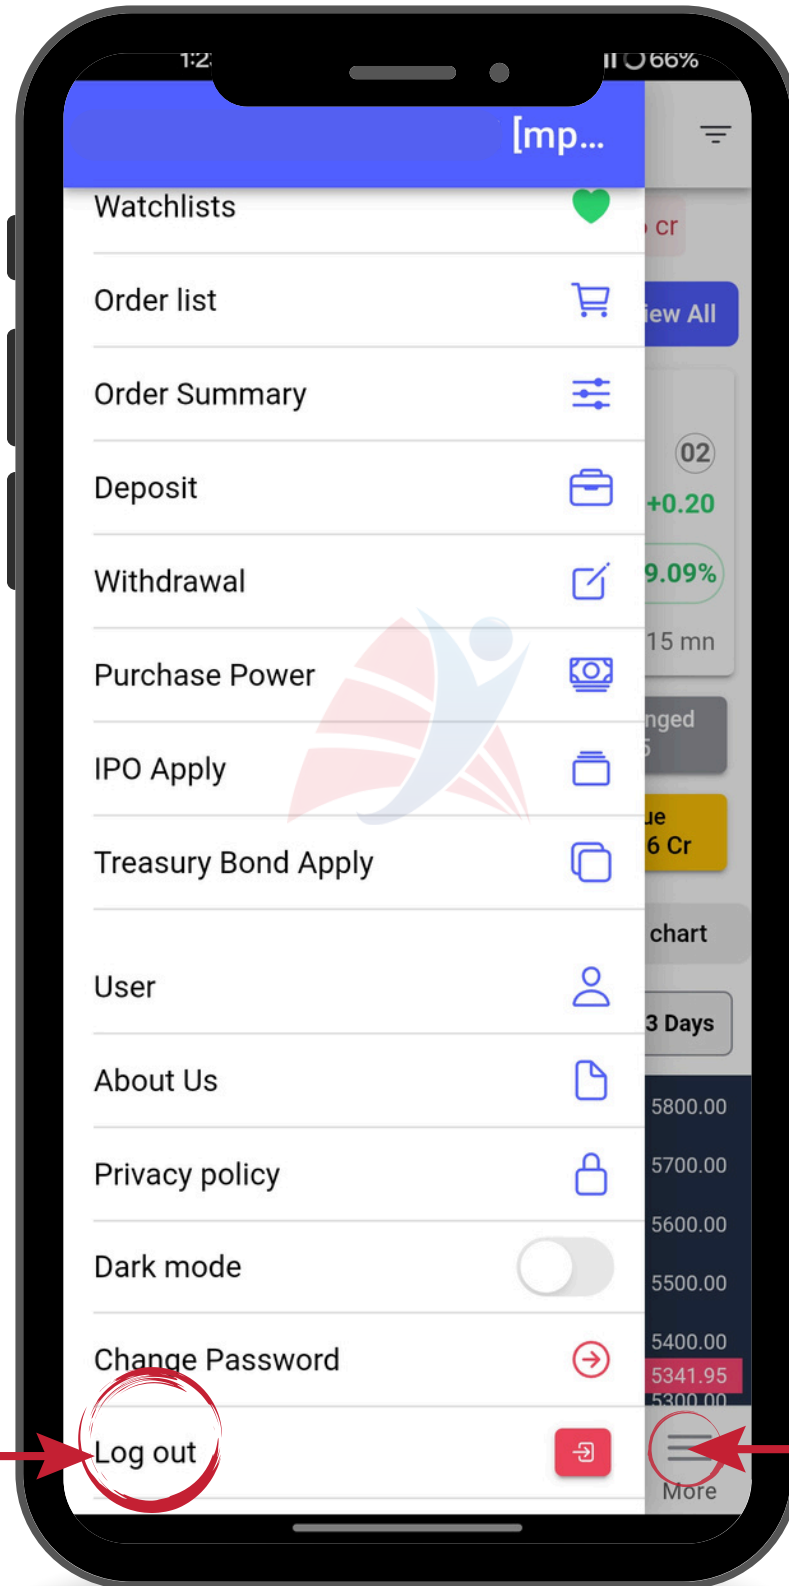

The image shows a smartphone screen with a trading application. At the top, a blue rounded rectangle contains the text "Limit vs Balance". The app interface displays market data for DSEX: 5,399.19, a change of -24.45 (-0.45%), and a value of 557.28 cr. Below this, there are "BUY" and "SELL" buttons. Under "BUY", there are dropdown menus for "PUBLIC" and another menu with an "x" icon. Two callout boxes with red arrows point to the "Limit: 225,794.00" and "Balance: 175,794.00" fields. Below these are fields for "Trading Code\*", "Quantity\*", and "Drip quantity". There are also buttons for "Limit" and "Market", and a "Price\*" field with up/down arrows. A green "SUBMIT ORDER" button is prominent. At the bottom, there are tabs for "All", "Active", "Executed", and "Termina...". The bottom navigation bar includes icons for "Trade", "Analysis", "Portfolio", "Share Price", and "More".

**This is your Total Limit Balance+Today's sell+Purchase Power**

**But You Can only Use this to Buy Z and Spot**

“Read annual reports, disclosures, and BSEC filings to understand company fundamentals”.

**Log out**

**Step 2**

**Select the **Log out** to verify your mobile number and email .**

**Step 1**

**Tap the **Three lines** icon.**

**“Monitor transaction fees and taxes. Small costs compound over time and reduce returns”.**
